

Summer academy for photography

with a focus on digital photography

July 2010 – basic course in English

The school for photography in Vienna offers a summer academy for photography every year in July. The photography course lasts for a week and consists of several workshops on different topics. For our international guests we offer a basic course with English language workshops.

Programme overview:

summer academy – basic course

Saturday, July 3rd – Saturday, July 10th 2010

Saturday, July 3rd 2010

opening of the „summer academy for photography“, 9 a.m. at the former cinema „Schlössl“ on Margaretenstraße 127, 1050 Vienna. We welcome all the participants and explain the details of the programme.

digital photography and architectural photography, 10 a.m.-4 p.m.

In this workshop we deal with the concepts and handling of a digital SLR-camera and look into the creative and composition basics of photography. During the afternoon excursion into the city center, participants put theory into practice using Vienna's architecture as a motif. Please bring along your own SLR-camera, instruction manual and memory card/s (4 GB). Excursion within Vienna using public transport (please bring valid transport tickets).

Sunday, July 4th 2010

image analysis/digital image editing for beginners, 10 a.m.-4 a.m.

After reviewing the results of the last workshop, we deal with the basics of image editing on the computer by improving sample pictures together. Please bring a selection of photos on CD or USB-stick for the image analysis.

Monday, July 5th 2010

landscape/garden photography, 10 a.m.-4 p.m.

During an excursion into the park of „Schönbrunn“ castle, participants practice different elements of landscape photography by taking pictures of this man-made garden landscape. Please bring along your own SLR-camera, instruction manual, memory card/s (4 GB) and if available a tripod, filters, close up or macro lens. Excursion within Vienna by using public transport (please bring valid transport tickets).

Tuesday, July 6th 2010

portraits, 10 a.m.-4 a.m.

Portrait photography is probably one of the most important photographic disciplines. After reviewing some basic tips and tricks for taking interesting portraits, we gain practical experience by photographing different models in the photo studio. Please bring along your own SLR-camera, instruction manual and memory card/s (4 GB).

July 2010 – basic course in English

Wednesday, July 7th 2010

image analysis/digital image editing – landscape/garden photography and portraiture, 10 a.m.-4 a.m.

After reviewing the results of the last workshops together, the participants can edit their individual photos from the landscape/garden photography and portraiture workshops on the computer. Please bring along a selection of photos on CD or USB-stick for the image analysis and editing.

Thursday, July 8th 2010

animal photography, 10 a.m.-4 p.m.

An excursion to the Viennese zoo „Schönbrunn“ offers the best opportunity to closely observe and capture impressive images of animals. Please bring along your own SLR-camera, instruction manual and memory card/s (4 GB). Admittance to the zoo „Schönbrunn“ (approx. € 12,-) is not included in the course fee (please bring along the entrance fee as well as any discount cards such as student ID or similar identity cards).

Friday, July 9th 2010

dance photography, 10 a.m.-4 p.m.

Dancing is movement. In this studio workshop we attempt to capture movement while illustrating that there are many roads that lead to Rome when it comes to dance photography. Searching for the „via regia“ we deal practically with the different ways of transforming dance into photographs. Please bring along your own SLR-camera, instruction manual, memory card/s (4 GB) and if available a tripod.

Saturday, July 10th 2010

image analysis/digital image editing – animal and dance photography, 10 a.m.-4 a.m.

After reviewing the results of the last workshops together, the participants can edit their individual photos from the animal and dance photography workshops on the computer. Please bring along a selection of photos on CD or USB-stick for the image analysis and editing.
